ABOUT US

Our mission, your confidence

OUR MISSION

To protect people, property and information with reliable technology that is installed properly and supported long after handover.

Hidden Systems Security has served Bahrain since 2012 as an installer and reseller of networking, security and communication systems. We work with proven global brands, our managing director holds Cisco and VMware certifications, and our clients include medical centers, commercial companies and Bahrain Air Base.

HOW WE WORK

1 **Assess**
We study your site and needs before recommending anything.

2 **Design**
We propose a right-sized system from proven brands, with a clear scope.

3 **Install**
We install, configure and test everything, then show your staff how to use it.

4 **Support**
We stay with you after handover with 2 years of full support.

2 YEARS

Full support on every system

Every system we install comes with 2 years of full support from our team, so your network, cameras, phones and access systems keep working as designed.

WHY CLIENTS CHOOSE US

Certified lead
Our managing director holds Cisco CCNP and VMware vSphere training.

Proven brands
Hikvision, Dahua, Cisco, Fortinet, MikroTik and more.

One team
Networking, security, phones and smart systems from a single company.

Trusted since 2012
Medical centers, businesses and Bahrain Air Base rely on us.

WHAT WE DO

Services we install and support

From a single apartment to a hospital, we design, supply, install and support the systems your business and home rely on every day.

1 Networking

Wired and wireless networks built for speed, coverage and security, with structured cabling, routers, switches, firewalls and Wi-Fi access points.

2 IP PBX and telephony

Business phone systems that connect offices, branches and extensions, with call routing, voicemail and IP phones.

3 CCTV

IP camera systems with recording and remote viewing on your phone, planned to cover entrances, corridors, parking and work areas.

4 Access control

Card, fingerprint and face-recognition door control and time attendance, so only authorized people enter and every entry is logged.

5 Intercom

Audio and video door intercoms for apartments, buildings and offices, in IP and analog versions.

6 Security alarms

Intrusion and safety alarms that alert you immediately when a door, window or area is breached.

7 Sound systems

Public address and background music for restaurants, clinics, shops and offices, laid out zone by zone for clear sound.

8 Dish and antenna

Satellite dish and antenna installation with multiswitch distribution so every room or apartment receives its channels.

9 Smart home

Control of lighting, doors, cameras and devices from your phone, integrated with your security and network systems.

10 Servers and software

Windows Server, Microsoft Office and Linux installation, configuration and support, including user accounts, file sharing and backups.

2 Years of full support included

Every system we install is backed by 2 years of full support from our team.

TRUSTED BRANDS

Proven brands, proven systems

We build every system from established manufacturers, so your equipment is reliable, easy to expand and easy to support.
